

## **IT Security Briefing**

**Date:** January 16, 2002

**Place:** Accenture Building, Reston Town Center, Va.

**Agenda:** 8 - 10 a.m.

Three industry experts will each present a 30 minute perspective – strategic, technical, and legal – of security issues facing our industry. What threats and vulnerabilities have emerged during the last three months? What process and technical changes should organizations be putting in place to deal with emerging threats and vulnerabilities? What key security/privacy legislation should companies be aware of today?
